Ms. Nancy McConnell and Ms. Holly Warner
Mariposa County Resource Conservation District
Post Office Box 746
Mariposa, California 95338

Dear Ms. McConnell and Ms. Warner:

I am writing regarding the RFCP grant proposal Building a Sustainable Upper Merced River Watershed Organization concept proposal recently submitted to the State Water Resource Control Board by the Mariposa County Resource Conservation District.

The San Joaquin River Management Program, established by State Legislation AB 3603 in September 1990, provides a public forum to identify problems and solutions for wildlife, flood protection, water quality, water supply, fisheries, and recreation issues. In February 1995, SJRMP submitted to the legislature a river management plan that recommended or supported various projects or programs to address these issues.

The SJRMP Advisory Council was presented with a summary of MCRCD's concept proposal at its June 25th meeting in Modesto, and had an opportunity to ask clarifying questions. The written concept proposal has also been posted on the SJRMP website. It is our understanding that the project is proposing a citizens' water quality monitoring program, and to survey existing research studies within the Watershed and identify gaps in assessment data. These activities are similar to projects or programs recommended in the 1995 plan and can advance water quality, wildlife, fisheries, and recreation improvements on the San Joaquin River.

Based on the June 25, 2003 presentation, the SJRMP Advisory Council has agreed that the proposed project is consistent with SJRMP's goals and adheres to the SJRMP principle that impacts resulting from the action are acceptable to other interests.

If you have any questions, please contact Paula J. Landis at (559) 230-3310.

Sincerely,

Timothy Ramirez, Chair
San Joaquin River
Management Program
Advisory Council
